Dear Chris,

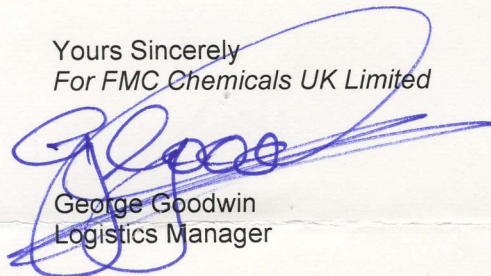

Following the successful completion of our maintenance shutdown, I write to formally register our thanks to all involved from within your organisation.

FMC's primary objective is the safety of all the people on our site including our contractors. This objective can only be achieved through the close cooperation of all involved. Your personnel demonstrated their willingness to work with us in both the preparation and execution stages of our shutdown.

We were particularly impressed with the high quality of the Method Statements provided and the Risk Assessments performed, together with the strict adherence to them. This was a key factor in achieving our goal of an injury free maintenance shutdown.

We look forward to the continuance of a mutually beneficial partnership and to working together to ensure an injury free workplace.

Yours Sincerely
For FMC Chemicals UK Limited
